Rich anti-aging emulsion with a high concentration of certified select organic active ingredients to regenerate, tone, nourish and revitalise the skin.

Intensive treatment whereby the product works deep down with a stimulating action, encouraging the formation of new collagen.

Helps to prevent ageing by regenerating the skin and facilitating cell turnover. Smooths out unevenness caused by lines by restoring lost tone and elasticity.

Makes up for nutritional deficiencies in mature skin, and slows down the effects of ageing in younger skin. Has a skin-firming effect thanks to the production of essential nutrients. Provides antioxidant action to combat free radicals.

SIDERE A not only has anti-ageing action, it also has a soothing action and reduces sensitivity over time. Provides a protective shield for sensitive skin, reducing red patches and making the skin more resistant to harsh environmental factors.

Direction of use

Apply on the cleansed face, neck and neckline every morning and night.
