SUPERIOR ORGANIC ANTI-AGING CREAM

**Regenerating /nourishing / smoothing**  
**SENSIBLE and COMBINATION SKIN**

An extraordinary anti-ageing cream that REGENERATES, HYDRATES and SOOTHES all skin types, including the most sensitive, and created by selecting precious certified organic active ingredients.

It balances out nutrient deficiencies in mature skin, helps prevent ageing by regenerating the skin and encouraging skin cell turnover. It also smooths any irregularities of the skin due to wrinkles, restoring lost tone and elasticity, as well as slowing down the effects of ageing in younger skin.

The product forms an effective protective screen for skins that are easily irritable, while reducing redness, making the skin more resistant to adverse environmental factors.

**100% NATURAL AND ORGANIC**

Over the years, the skin undergoes transformations that produce a progressive change in its outward appearance.

Mature skin therefore tends to become drier and more relaxed, it loses firmness and brightness, tone and elasticity, almost as if it were empty from the inside. Sensitive skin is thin, or slightly deconstructed.

It reacts quickly to temperature changes. It is usually dry, delicate and prone to allergic reactions.
